Online Alt-News Publication Link List 2024

Preamble: This document contains a link-list of online alt-news resources, most of which are illegally de-ranked by [Google and other major browsers](#). The reason is simple. The corporate owned US government is afraid of so many truths citizens, taxpayers and especially voters need to know. What is the major difference between China and the US? In China the government can control the corporations. In the US the [profit-driven corporations](#) control the government and so the world experiences eternal wars, and quite possibly thermonuclear war and human species extinction. (Continued after list.)

The following are some "alt-media" sources that have foreign government sponsorship.

- Regardless as to what adjuncts to the New American Red Scare think, according to The United Nations 1948 Universal Declaration of Human Rights (UDHR) – Article 19 Everyone has the right to freedom of opinion and expression; this right

includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media regardless of frontiers.

- Those who refuse to listen to minority voices have psychological issues and need therapy. In this world dominated by the Global Hegemon, virtually everyone who is not among the super-rich becomes a minority if they resist absorption into the “great blob.”

Eastern News Links Worth Reading

Americans, believe it or not, have a right, and I believe a duty to read the viewpoints of all people around the world, as they nearly always have more legitimate and honest viewpoints than the self-serving “news product” produced by predatory corporate minions in the US.

A few of the above are pro-democracy. A few others are pro-socialist. Most generally avoid those kinds of political affiliations. Many make it clear both American political parties are simply two sides of the same coin representing primarily corporate and other special interests and not the regular working people who vote. If they are pro-peace, against racism, misogyny and economic sanctions, and support drastically reducing the ever-widening wealth gaps within and between nations they are probably alt-news. If they level ridiculous vague unproven allegations using unnamed sources like: “pentagon spokesperson,” “administration official,” “intelligence sources” and so on directed

towards one of CIA/DoD's target nations or officials, I'll delete it as I've always loathed bullies.

No nation was designed by God or nature to rule all the world. American political schemers have used concepts like "Manifest Destiny," "American Exceptionalism" and "hegemony in perpetuity" to violently invade and sack entire continents of people. The concept of American "hegemony in perpetuity" (total domination of the entire earth and all the governments and people in it) is a delusion to justify global scale armed robbery of nations' natural resources and all other assets worth stealing. American foreign policy makers, whether they like it or not, have to learn how to play nicely in the sandbox of life as most children do by age four. Thus, the emergence of a multi-polar world is a good thing, and US extreme efforts to stop it via creating a so-called "New Cold War" (and/or hot proxy war such as in Ukraine¹) are psychopathological, deluded, self-destructive, criminal as per international law, and will ultimately prove suicidal unless stopped post haste. *The following alt-news publishers and writers all know this*, but these simple truths are hidden from the majority of American voters and tax payers (by federal government sponsored [illegal censorship](#)) in order for [corrupt politicians](#) to continue to bilk them of their hard-earned money, further enriching the super-rich, and burdening the poor with ever increasing debts. [This is slavery](#). How many millions of mothers and fathers, brothers and sisters, sons and daughters around the world have to sell their bodies so their families can eat? Nobody is measuring that. In an effort to try to reverse these ultimately self-destructive trends, return democracy in the US to the people, and power within and over their own countries to all people around the world, the following list of publications is offered. It represents the last vestiges of the free press in the world. It is not a complete list, but collectively represents most of the best pro-peace & justice, anti-empire publications in the world I have found so far, and this list keeps growing. We, the seekers and promoters of some kind of common sense in this rat-race created by greedy morons, deserve better.

– Alt-News Review Editor Gregory Brundage

The ever-increasing US policy makers defiance of laws and values are essential components of the United States' explicitly stated goal of global hegemony in perpetuity most recently expressed as an American version of "[rules based international order](#)."

Nations who resist [absorption](#) into the Euro-American "blob" get smeared with American funded defamation, color revolutions, civil and international wars, and economic sanctions.

Journalists who attempt to cast light on this grim despotic situation get covert and overt defamation, economic isolation, harassment, imprisonment ([1](#), [2](#), [3](#), [4](#)), if they're lucky [exile](#), and in some cases, death ([1](#), [2](#), [3](#), [4](#)).

Though so tactfully and deceptively written, it was really H. Clinton that kicked-off this new Cold War with her article titled: America's Pacific Century – The future of politics will be decided in Asia, not Afghanistan or Iraq, and the United States will be right at the center of the action. <https://foreignpolicy.com/2011/10/11/americas-pacific-century>.

The USA needs to stop attacking other nations and learn how to cooperate with other nations to make this world into the paradise it could be. Instead, look at what we have now:

UNHCR: A record 100 million people forcibly displaced
worldwide, published May 23, 2022

That should have been headline news around the world, and US foreign policies and the politicians that vote for them, instigating and driving the wars, and imposing the economic sanctions that cause 99.9% of that vast ocean of human misery, should be named and shamed into reversing their corrupt activities, or voted out of office and in many cases prosecuted in the ICC, in a fair and just world.

Because of my academic background, I enjoy trying to fit the pieces of fragmented news into larger schemata. Thus, I often incorporate more history and law into my work than most alt-news writers and my articles tend to be longer often turning into books.

The last survivors of the free press fly under the banner of Alt-News. They are a battle-hardened bunch from their inception. Especially since 2017 they have come under the [withering fire](#) of the corporate controlled western hegemonic war machine and its effort to totally [scrub the internet](#) of all [real investigative journalism](#) thereby killing off the free press once and for all. Google, with its [near monopoly](#) on search engine results, has played an illegal leading role in that largely successful suppression effort. This process however is not new.

I was 19 years in 1975 when someone [blew up the alt-newspaper office](#) in Milwaukee, Wisconsin where I was a university student. That terrorist attack was generally assumed to be the work of the “Red Squad” in the Milwaukee Police Department.

Now the federal government, major browsers, and [webhosts](#) take the lead de-ranking alt-newspapers, intimidating sponsors, friends and family of alt-news writers (as this writer knows from personal experience), encouraging frivolous but expensive to defend litigation, and so on.

In order to reverse the above outlined horrific trends essentially reversing the outcome of the last US Civil War (in the 1860s), and totally eliminating Americans’ First Amendment rights, the reader of this link-list is invited to share it widely with all those who value and cherish truth, justice and freedom, as does this writer.

Only six or so years ago most the above news links could be found through ordinary google searches. Not anymore. The US has, tragically, lost its way, and only the truth can set us, and the world free again. “Free at last” as Dr. Martin Luther King hoped and dreamed? Not yet, but it is possible if enough like-minded people work together to make it happen. Then, Louis Armstrong’s song “[What A Wonderful World](#)” will become a reality for us, our children, and children’s children’s children.

Start reading some real news for a change. It’s often not a pretty picture, but knowing is better than not knowing, and the ostrich approach to life has certain liabilities associated with it. Then...
